Letter of Recommendation

This is to recommend the language school 'Centrum Języka Polskiego'.

I have started to study Russian language there in 2003 and I continue my individual lessons with great pleasure, interest and eagerness. The school employs devoted, qualified and experienced teachers who apply the individual approach to their students. Materials prepared by the school are diversified and cover not only grammar and its problematic points but also actual issues in the Russian Federation (materials based on magazines and newspapers and audiovisual materials).

I am sure that 'Centrum Języka Polskiego' is able to fulfill the expectations of even the most demanding students.

I would like to express my great appreciation to the school and especially to Mrs. Lena Młynarska for her continuous effort in advancing my Russian language skills and in keeping my engagement on the constantly high level.

With best regards,

Anna Krzysztofik
