

To whom it may concern

I have been taking Russian language courses at Centrum Języka Polskiego for 10 years. At some point it was an individual course now it is a group one.

All my courses have been conducted in a very professional manner.

The lector is always well prepared for the lessons – the materials provided by Centrum are very often prepared especially for our group, cover the area of interest of the participants.

I would strongly recommend Centrum as a very professional and user-friendly institution.
